HE FIRST PAYMENT WAS MADE

sterday at Pitisburgh by Senator Scott. Possession to be Given the Local Company this Morning-The Mold Shop will be on Early Next Week-An Offer to Sell the Hobbs Plant Made by the Trust-A Possible Movement to Bay It,

Last evening Senator N. B. Scott re-turned from Pittsburgh, where he went in the morning for the purpose of making the first payment of stock and cash on behalf of the local syndicate that has purchased the old Central giass works, in East Wheeling, from the United States Glass Company. The money was paid to the trust's officials

money was paid to the trust's officials and posession will be given the local company, the Central Glass Company, this morning.

When asked as to the plans of the Gentral Company for the immediate future, Mr. Scott said that the mold shop with a small force would go on the fore part of next week. Of course, it will be some time before the works will be running in full, as an entire set of molds must first be designed and made. But the mere announcemnt that finally the deadly grasp of the United States Glass Company on the half dead industry in this city has been relaxed will be halled with satisfaction.

The entire city will benefit by the resumption of work at the Central, especially East Wheeling, which has severely felt the pecuniary loss through the two and one-half years' idleness of over 400 workmen who resided in that part of the town.

It is now in order for the movement

It is now in order for the movement to repurchase the Hobbs works, on the South Side, to take on renewed activity. In this connection Mr. South brings rood news from Pittsburgh in the shape of what he terms a very favorable offer to sell the Hobbs plant to Wheeling people. He did not desire to make the figure, which has been placed on it by the United States people, public, but said that it would be made known to any persons who would endeavor to get the works started.

Proposed Reform in Harness Racing-Last Night's Bowling-Other News in Sport's Domain. "Recent discussion on proposed plans

for improving harness racing has de-monstrated that there is widespread monstrated that there is widespread dissatisfaction with the present three-in-five system, and that if its opponents were combined in favor of any other method, the one that has been in vogue for so many years will have to give way to the new one, whatever it may be, says the Horse Review. "Just now discussion is limited to the Sibley plan, the McCarthy-Sibley plan, and the proposition to make all races mile heats, two-in-three. The most notable fact in connection with the controversy is that while each has able defenders, the opposition is equally determined and aggressions. while each has able defenders, the opposition is sequally determined and aggressive. But the campaign of education is certain to do some good, provided it is claimly demonstrated that the three-influe system has all the weaknesses that are charged to it. There is, however, little hope for an immediate change. The next congress of the American Trotting Association will not be held until May, 1898, and it is not likely that the congress of the National Association, which is to be held in 1896, will take any radical steps, as to do so would ald but little in instituting reform. But that need not stop the discussion, of which there cannot be too much. Nor need it prevent any association from making its races two-in-three instead of three-in-five. As to other plans, they can be debated from every point of view, so that out of the discussion will come reform, provided a majority of the totes represented in the 1232 congresses are in favor of a change." dtion is equally determined and aggre-

They feel much encouraged by this, and hope to secure the success of the movement at an early day. The plan is to secure a number of members at a reasonable annual fee to make the room self-supporting, but have it open for the general public as well.

Stolen Diamonds Recovered.

Several days ago a Mr. Crawley, who boards at the Hotel Windsor, was "de-prived" of a very handsome diamond prived" of a very handsome diamond stud while it was being passed about for the admiration of some gents. The police were notified and Lleut. Ingram has since been working on the case. Yesterday he thought he was pretly hot on the trail, and went to the Windsor to see about a clue, when he found that the stone had been returned by a messenger, who simply laid it on the counter with the remark that it was a package for Mr. Crawley. Who had it or why it was sent back in that way is not known.

A Hit with the Boys.

A Hit with the Boys.

"A Cracker Jack" opened a three night's engagement at the Grand Opera House last night to a large audionce. The play is of the sensational order and abounds in exciting scenes and climaxes. The company is only fair, but seemed to please the gallery, whose cheers and applause were deafening, especially when the hero got the best of the villain in a renlistic sword encunter in the second act. Several entertaining specialties are given by Mr. and Miss Hanford and Mr. Newman. "A Cracker Jack" will be repeated to-night.

"A Trip to Chinatown,"

"A Trip to Chinatown."

Hoyt's "A Trip to Chinatown" will be the attraction at the Opera House January 8. Two new stars will be presented to the theatre going public in the persons of Miss Laura Riggar, who is very beautiful and talented and who plays the widow, also Mr. Burt Haverly, quaint and original, who will play Well and Strong. These people are well known to the public as stage artists, but this season introduces them as stars. Mr. Hoyt takes great pleasure in being able to give these people a vehicle that fits them to such a nicety.

A Great Play Promised.

Augustus Thomas' great play, "Ala-Augustus Thomas' great play, "Alabama," will be presented at the Opera House next Friday evening, January 10. With the merits of the "Alabama" company, the theatre-goers of this city are familiar. Nearly all of its members are actors of established and national reputation, and most of them are popular favorites in this city. Mr. Thomas' play has unquestionably placed him in the front ranks of the dramatists of the country. Its success dramatists of the country. Its success in the east has been unqualified, and it has been universally accepted there as the distinctively American play.

More than usual interest will doubt More than usual interest will doubt-less surround the coming of the "Prin-cess Bonnie" opera company to the Opera House next Monday, when this brilliant success will be seen with the original New York cast, screery, etc. There are nearly sixty members in the organization and one of the big feat-ures is the chorus, which has hardly ever been equaled in ability. Among the cast are Fred Hennox, William Armstrong, Robert Br.derlek, Joseph S. Greensfelder, George O'Donnell, Jen-nie Goldthwaite, Hilda Clark, Bessie Fairbairn and others of importance.

Gusher Comes in in the Cali Creek Re-gion at Waverly-A Good Well in Sten-benville Field. Last night the Intelligencer received

special dispatch from Parkersburg, telling of the coming in of a gusher i telling of the coming in of a gusher in the Calf Creek region, near Waverly. It is the Jones No. 1 of the Calf Creek Oil Company, located about 1,000 feet south-east of the famous "Big Jim" which created such a sensation some time ago. The new well was going at what was estimated at a 100-barrel clip yesterday afternoon. Its advent has been the cause of considerable excitement, many oil men predicting that a second Sistersville pool will be brought out in Wood and Pleasants counties. Four other wells are to be put down immediately in the same neighborhood and additional important developments and additional important developments are looked for in a short time.

Yesterday, the Lewis No. 10, of the Florence Oil Company, in the Steuben-ville field, in Jefferson county, Ohio, was drilled in and was good for a daily output of fifty barrels. It filled up 700 feet with oil when first drilled in.
